

AWS Well Architected Framework Review Report

WAFPillar	CostOptimization
Question	How do you evaluate the cost of effort?
BestPractice	Perform automation for operations
Severity	Low
Reference	https://aws.amazon.com/
Validation	SSM Automation documents
Status	10 SSM Automation document(s)

WAFPillar	CostOptimization
Question	How do you evaluate new services?
BestPractice	Develop a workload review process
Severity	High
Reference	https://aws.amazon.com/
Validation	Workload review process
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you evaluate new services?
BestPractice	Review and analyze this workload regularly
Severity	Medium
Reference	https://aws.amazon.com/

Validation	Well-Architected workload reviews
Status	0 Well-Architected workload(s)

WAFPillar	CostOptimization
Question	How do you manage demand, and supply resources?
BestPractice	Perform an analysis on the workload demand
Severity	High
Reference	https://aws.amazon.com/
Validation	Workload demand analysis
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you manage demand, and supply resources?
BestPractice	Implement a buffer or throttle to manage demand
Severity	Medium
Reference	https://aws.amazon.com/
Validation	SQS queues and API Gateway usage plans
Status	1 SQS queue(s), 0 API Gateway usage plan(s)

WAFPillar	CostOptimization
Question	How do you manage demand, and supply resources?
BestPractice	Supply resources dynamically
Severity	Low

Reference	https://aws.amazon.com/
Validation	Auto Scaling Groups
Status	0 Auto Scaling Group(s)

WAFPillar	CostOptimization
Question	How do you plan for data transfer charges?
BestPractice	Perform data transfer modeling
Severity	High
Reference	https://aws.amazon.com/
Validation	Data transfer modeling
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you plan for data transfer charges?
BestPractice	Select components to optimize data transfer cost
Severity	Medium
Reference	https://aws.amazon.com/
Validation	VPC endpoints (reduce data transfer)
Status	0 VPC endpoint(s)

WAFPillar	CostOptimization
Question	How do you plan for data transfer charges?
BestPractice	Implement services to reduce data transfer costs

Severity	Medium
Reference	https://aws.amazon.com/
Validation	CloudFront CDN distributions
Status	0 CloudFront distribution(s)

WAFPillar	CostOptimization
Question	How do you use pricing models to reduce cost?
BestPractice	Perform pricing model analysis
Severity	High
Reference	https://aws.amazon.com/
Validation	Savings Plans and Reserved Instances
Status	1 active Savings Plan(s), 0 active RI(s)

WAFPillar	CostOptimization
Question	How do you use pricing models to reduce cost?
BestPractice	Choose Regions based on cost
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Region cost optimization
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you use pricing models to reduce cost?

BestPractice	Select third-party agreements with cost-efficient terms
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Third-party cost agreements
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you use pricing models to reduce cost?
BestPractice	Implement pricing models for all components of this workload
Severity	Low
Reference	https://aws.amazon.com/
Validation	Reserved Instances and Savings Plans
Status	0 RI(s), 1 Savings Plan(s)

WAFPillar	CostOptimization
Question	How do you use pricing models to reduce cost?
BestPractice	Perform pricing model analysis at the management account level
Severity	Low
Reference	https://aws.amazon.com/
Validation	Management account pricing analysis
Status	Requires manual review

Question	How do you meet cost targets when you select resource type, size and number?
BestPractice	Perform cost modeling
Severity	High
Reference	https://aws.amazon.com/
Validation	Cost modeling
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you meet cost targets when you select resource type, size and number?
BestPractice	Select resource type, size, and number based on data
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Compute Optimizer EC2 recommendations
Status	Over-provisioned: 0, Under-provisioned: 0

WAFPillar	CostOptimization
Question	How do you meet cost targets when you select resource type, size and number?
BestPractice	Select resource type, size, and number automatically based on metrics
Severity	Low
Reference	https://aws.amazon.com/
Validation	Auto Scaling Groups
Status	0 Auto Scaling Group(s)

WAFPillar	CostOptimization
Question	How do you meet cost targets when you select resource type, size and number?
BestPractice	Consider using shared resources
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Shared resources (RAM)
Status	0 resource share(s) (RAM)

WAFPillar	CostOptimization
Question	How do you evaluate cost when you select services?
BestPractice	Identify organization requirements for cost
Severity	High
Reference	https://aws.amazon.com/
Validation	Organization cost requirements
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you evaluate cost when you select services?
BestPractice	Analyze all components of this workload
Severity	High
Reference	https://aws.amazon.com/
Validation	Workload component analysis
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you evaluate cost when you select services?
BestPractice	Perform a thorough analysis of each component
Severity	High
Reference	https://aws.amazon.com/
Validation	Component-level cost analysis
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you evaluate cost when you select services?
BestPractice	Select software with cost effective licensing
Severity	Low
Reference	https://aws.amazon.com/
Validation	License Manager configurations
Status	Unable to verify License Manager

WAFPillar	CostOptimization
Question	How do you evaluate cost when you select services?
BestPractice	Select components of this workload to optimize cost in line with organization priorities
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Cost optimization priorities

Status	Requires manual review
--------	------------------------

WAFPillar	CostOptimization
Question	How do you evaluate cost when you select services?
BestPractice	Perform cost analysis for different usage over time
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Cost over time (Cost Explorer)
Status	Last month total cost: \$92775.62

WAFPillar	CostOptimization
Question	How do you decommission resources?
BestPractice	Track resources over their life time
Severity	High
Reference	https://aws.amazon.com/
Validation	AWS Config resource tracking
Status	1 Config recorder(s) tracking resources

WAFPillar	CostOptimization
Question	How do you decommission resources?
BestPractice	Implement a decommissioning process
Severity	High
Reference	https://aws.amazon.com/

Validation	Decommissioning process
Status	Requires manual review

WAFPillar	CostOptimization
Question	How do you decommission resources?
BestPractice	Decommission resources
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Idle resources (stopped EC2, unattached EBS, unused EIPs)
Status	Stopped instances: 0, Unattached EBS: 0, Unused EIPs: 0

WAFPillar	CostOptimization
Question	How do you decommission resources?
BestPractice	Decommission resources automatically
Severity	Low
Reference	https://aws.amazon.com/
Validation	Automated decommissioning
Status	Requires manual review - check Lambda/Config remediation

WAFPillar	CostOptimization
Question	How do you decommission resources?
BestPractice	Enforce data retention policies
Severity	Medium

Reference	https://aws.amazon.com/
Validation	S3 lifecycle policies
Status	5 S3 bucket(s) with lifecycle policies

WAF Pillar	CostOptimization
Question	How do you monitor your cost and usage?
BestPractice	Configure detailed information sources
Severity	High
Reference	https://aws.amazon.com/
Validation	Cost and Usage Reports (CUR)
Status	Unable to verify CUR definitions

WAF Pillar	CostOptimization
Question	How do you monitor your cost and usage?
BestPractice	Add organization information to cost and usage
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Tagging for cost and usage
Status	23 tag key(s) across resources

WAF Pillar	CostOptimization
Question	How do you monitor your cost and usage?
BestPractice	Identify cost attribution categories

Severity	High
Reference	https://aws.amazon.com/
Validation	Cost allocation tags
Status	6 active cost allocation tag(s)

WAFPillar	CostOptimization
Question	How do you monitor your cost and usage?
BestPractice	Establish organization metrics
Severity	High
Reference	https://aws.amazon.com/
Validation	Organization metrics
Status	Requires manual review
