

AWS Well Architected Framework Review Report

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Have a process for continuous improvement
Severity	High
Reference	https://aws.amazon.com/
Validation	Process for continuous improvement
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Perform post incident analysis
Severity	High
Reference	https://aws.amazon.com/
Validation	Perform post incident analysis
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Implement feedback loops
Severity	High
Reference	https://aws.amazon.com/

Validation	Implement feedback loops
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Perform knowledge management
Severity	High
Reference	https://aws.amazon.com/
Validation	Perform knowledge management
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Define drivers for improvement
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Define drivers for improvement
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Validate insights
Severity	Medium

Reference	https://aws.amazon.com/
Validation	Validate insights
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Perform operations metrics reviews
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Operations metrics reviews - CloudWatch dashboards
Status	CloudWatch dashboards (metrics review capability): 0

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Document and share lessons learned
Severity	Low
Reference	https://aws.amazon.com/
Validation	Document and share lessons learned
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you evolve operations?
BestPractice	Allocate time to make improvements

Severity	Low
Reference	https://aws.amazon.com/
Validation	Allocate time to make improvements
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you manage workload and operations events?
BestPractice	Use a process for event, incident, and problem management
Severity	High
Reference	https://aws.amazon.com/
Validation	Event, incident, problem management - SSM Incidents response plans
Status	No response plans found

WAFPillar	OperationalExcellence
Question	How do you manage workload and operations events?
BestPractice	Have a process per alert
Severity	High
Reference	https://aws.amazon.com/
Validation	Process per alert - CloudWatch alarms with actions
Status	Alarms with actions: 0 / 0

WAFPillar	OperationalExcellence
Question	How do you manage workload and operations events?

BestPractice	Prioritize operational events based on business impact
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Prioritize operational events based on business impact
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you manage workload and operations events?
BestPractice	Define escalation paths
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Define escalation paths
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you manage workload and operations events?
BestPractice	Define a customer communication plan for service-impacting events
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Define customer communication plan for service-impacting events
Status	Requires manual review

WAFPillar	OperationalExcellence
------------------	-----------------------

Question	How do you manage workload and operations events?
BestPractice	Communicate status through dashboards
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Communicate status through dashboards
Status	CloudWatch dashboards: 0

WAFPillar	OperationalExcellence
Question	How do you manage workload and operations events?
BestPractice	Automate responses to events
Severity	Low
Reference	https://aws.amazon.com/
Validation	Automate responses - EventBridge rules with targets
Status	EventBridge rules with targets: 2

WAFPillar	OperationalExcellence
Question	How do you understand the health of your operations?
BestPractice	Measure operations goals and KPIs with metrics
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Measure operations goals and KPIs - CloudWatch dashboards
Status	CloudWatch dashboards: 0

WAFPillar	OperationalExcellence
Question	How do you understand the health of your operations?
BestPractice	Communicate status and trends to ensure visibility into operation
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Communicate status - SNS notification topics
Status	SNS topics: 3

WAFPillar	OperationalExcellence
Question	How do you understand the health of your operations?
BestPractice	Review operations metrics and prioritize improvement
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Review operations metrics and prioritize improvement
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you utilize workload observability in your organization?
BestPractice	Analyze workload metrics
Severity	Medium
Reference	https://aws.amazon.com/
Validation	CloudWatch metrics namespaces in use
Status	13 metric namespaces active

Namespaces	AWS/DynamoDB, AWS/Events, AWS/GuardDuty, AWS/HealthLake, AWS/KMS, AWS/Lambda, AWS/Logs, AV
-------------------	--

WAFPillar	OperationalExcellence
Question	How do you utilize workload observability in your organization?
BestPractice	Analyze workload logs
Severity	Medium
Reference	https://aws.amazon.com/
Validation	CloudWatch Log Groups for workload logs
Status	10 log groups found

WAFPillar	OperationalExcellence
Question	How do you utilize workload observability in your organization?
BestPractice	Analyze workload traces
Severity	Medium
Reference	https://aws.amazon.com/
Validation	AWS X-Ray distributed tracing configuration
Status	X-Ray distributed tracing configured

WAFPillar	OperationalExcellence
Question	How do you utilize workload observability in your organization?
BestPractice	Create actionable alerts
Severity	High
Reference	https://aws.amazon.com/

Validation	CloudWatch alarms with actions configured
Status	No CloudWatch alarms configured

WAFPillar	OperationalExcellence
Question	How do you utilize workload observability in your organization?
BestPractice	Create dashboards
Severity	Medium
Reference	https://aws.amazon.com/
Validation	CloudWatch dashboards for operational visibility
Status	No CloudWatch dashboards found

WAFPillar	OperationalExcellence
Question	How do you know that you are ready to support a workload?
BestPractice	Ensure personnel capability
Severity	High
Reference	https://aws.amazon.com/
Validation	Ensure personnel capability
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you know that you are ready to support a workload?
BestPractice	Ensure a consistent review of operational readiness
Severity	High

Reference	https://aws.amazon.com/
Validation	Ensure consistent review of operational readiness
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you know that you are ready to support a workload?
BestPractice	Use runbooks to perform procedures
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Runbooks - SSM Automation documents
Status	SSM Automation documents (runbooks): 10

WAFPillar	OperationalExcellence
Question	How do you know that you are ready to support a workload?
BestPractice	Use playbooks to investigate issues
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Playbooks - SSM Automation documents
Status	SSM Automation documents (playbooks): 10

WAFPillar	OperationalExcellence
Question	How do you know that you are ready to support a workload?
BestPractice	Make informed decisions to deploy systems and changes

Severity	Low
Reference	https://aws.amazon.com/
Validation	Make informed decisions to deploy systems and changes
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you know that you are ready to support a workload?
BestPractice	Create support plans for production workloads
Severity	Low
Reference	https://aws.amazon.com/
Validation	Support plans for production workloads
Status	Support plan active

WAFPillar	OperationalExcellence
Question	How do you mitigate deployment risks?
BestPractice	Plan for unsuccessful changes
Severity	High
Reference	https://aws.amazon.com/
Validation	Rollback configs - CodeDeploy deployment configs
Status	Deployment configs: 17, Rollback/Canary configs: 12

WAFPillar	OperationalExcellence
Question	How do you mitigate deployment risks?

BestPractice	Test deployments
Severity	High
Reference	https://aws.amazon.com/
Validation	Test deployments - CodeBuild projects
Status	CodeBuild projects: 0

WAFPillar	OperationalExcellence
Question	How do you mitigate deployment risks?
BestPractice	Employ safe deployment strategies
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Safe deployment strategies - Blue/Green or Canary
Status	Blue/Green or Canary configs: 12

WAFPillar	OperationalExcellence
Question	How do you mitigate deployment risks?
BestPractice	Automate testing and rollback
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Automate testing and rollback - CodeDeploy auto-rollback
Status	CodeDeploy deployments: 0 (check deployment groups for auto-rollback config)

WAFPillar	OperationalExcellence
------------------	-----------------------

Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Use version control
Severity	High
Reference	https://aws.amazon.com/
Validation	Version control - CodeCommit repositories
Status	CodeCommit repositories: 0

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Test and validate changes
Severity	High
Reference	https://aws.amazon.com/
Validation	Test and validate changes - CodeBuild projects
Status	CodeBuild projects: 0

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Use configuration management systems
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Configuration management - SSM managed instances
Status	SSM managed instances: 0

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Use build and deployment management systems
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Build and deployment - CodePipeline
Status	CodePipeline pipelines: 0

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Perform patch management
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Patch management - SSM patch compliance
Status	SSM compliance summaries: 0

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Share design standards
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Share design standards
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Implement practices to improve code quality
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Implement practices to improve code quality
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Use multiple environments
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Use multiple environments
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Make frequent, small, reversible changes
Severity	Low
Reference	https://aws.amazon.com/
Validation	Make frequent, small, reversible changes - CodePipeline

Status	CodePipeline pipelines: 0
---------------	---------------------------

WAFPillar	OperationalExcellence
Question	How do you reduce defects, ease remediation, and improve flow into production?
BestPractice	Fully automate integration and deployment
Severity	Low
Reference	https://aws.amazon.com/
Validation	Fully automate integration and deployment
Status	No CodePipeline pipelines found

WAFPillar	OperationalExcellence
Question	How do you implement observability in your workload?
BestPractice	Identify key performance indicators
Severity	High
Reference	https://aws.amazon.com/
Validation	Key performance indicators - CloudWatch dashboards
Status	CloudWatch dashboards (KPI tracking): 0

WAFPillar	OperationalExcellence
Question	How do you implement observability in your workload?
BestPractice	Implement application telemetry
Severity	High
Reference	https://aws.amazon.com/

Validation	Application telemetry - CloudWatch alarms and logs
Status	CloudWatch alarms: 0, Log groups: 10

WAFPillar	OperationalExcellence
Question	How do you implement observability in your workload?
BestPractice	Implement user experience telemetry
Severity	High
Reference	https://aws.amazon.com/
Validation	Implement user experience telemetry
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you implement observability in your workload?
BestPractice	Implement dependency telemetry
Severity	High
Reference	https://aws.amazon.com/
Validation	Dependency telemetry - cross-service metrics
Status	Namespaces: 14, Alarms by namespace: 0 total

WAFPillar	OperationalExcellence
Question	How do you implement observability in your workload?
BestPractice	Implement distributed tracing
Severity	High

Reference	https://aws.amazon.com/
Validation	X-Ray distributed tracing
Status	X-Ray distributed tracing configured

WAFPillar	OperationalExcellence
Question	How does your organizational culture support your business outcomes?
BestPractice	Provide executive sponsorship
Severity	High
Reference	https://aws.amazon.com/
Validation	Provide executive sponsorship
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How does your organizational culture support your business outcomes?
BestPractice	Team members are empowered to take action when outcomes are at risk
Severity	High
Reference	https://aws.amazon.com/
Validation	Team members empowered to take action when outcomes at risk
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How does your organizational culture support your business outcomes?
BestPractice	Escalation is encouraged

Severity	High
Reference	https://aws.amazon.com/
Validation	Escalation is encouraged
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How does your organizational culture support your business outcomes?
BestPractice	Communications are timely, clear, and actionable
Severity	High
Reference	https://aws.amazon.com/
Validation	Communications are timely, clear, and actionable
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How does your organizational culture support your business outcomes?
BestPractice	Experimentation is encouraged
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Experimentation is encouraged
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How does your organizational culture support your business outcomes?

BestPractice	Team members are encouraged to maintain and grow their skill sets
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Team members encouraged to maintain and grow skill sets
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How does your organizational culture support your business outcomes?
BestPractice	Resource teams appropriately
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Resource teams appropriately
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you structure your organization to support your business outcomes?
BestPractice	Resources have identified owners
Severity	High
Reference	https://aws.amazon.com/
Validation	Check for Owner tag on resources
Status	Owner tag key found in use across resources

WAFPillar	OperationalExcellence
------------------	-----------------------

Question	How do you structure your organization to support your business outcomes?
BestPractice	Processes and procedures have identified owners
Severity	High
Reference	https://aws.amazon.com/
Validation	Processes and procedures have identified owners
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you structure your organization to support your business outcomes?
BestPractice	Operations activities have identified owners responsible for their performance
Severity	High
Reference	https://aws.amazon.com/
Validation	Operations activities have identified owners
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you structure your organization to support your business outcomes?
BestPractice	Mechanisms exist to manage responsibilities and ownership
Severity	High
Reference	https://aws.amazon.com/
Validation	Mechanisms exist to manage responsibilities and ownership
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you structure your organization to support your business outcomes?
BestPractice	Mechanisms exist to request additions, changes, and exceptions
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Mechanisms exist to request additions, changes, and exceptions
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you structure your organization to support your business outcomes?
BestPractice	Responsibilities between teams are predefined or negotiated
Severity	Low
Reference	https://aws.amazon.com/
Validation	Responsibilities between teams are predefined or negotiated
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you determine what your priorities are?
BestPractice	Evaluate customer needs
Severity	High
Reference	https://aws.amazon.com/
Validation	Evaluate customer needs
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you determine what your priorities are?
BestPractice	Evaluate internal customer needs
Severity	High
Reference	https://aws.amazon.com/
Validation	Evaluate internal customer needs
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you determine what your priorities are?
BestPractice	Evaluate governance requirements
Severity	High
Reference	https://aws.amazon.com/
Validation	Evaluate governance requirements - check Config compliance rules
Status	AWS Config compliance rules: 3

WAFPillar	OperationalExcellence
Question	How do you determine what your priorities are?
BestPractice	Evaluate compliance requirements
Severity	High
Reference	https://aws.amazon.com/
Validation	Evaluate compliance requirements - check Config compliance rules
Status	AWS Config compliance rules: 3

WAFPillar	OperationalExcellence
Question	How do you determine what your priorities are?
BestPractice	Evaluate threat landscape
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Evaluate threat landscape
Status	Requires manual review

WAFPillar	OperationalExcellence
Question	How do you determine what your priorities are?
BestPractice	Evaluate tradeoffs while managing benefits and risks
Severity	Medium
Reference	https://aws.amazon.com/
Validation	Evaluate tradeoffs while managing benefits and risks
Status	Requires manual review
